Mr. William Everett Medling  
Smith, Hinchman & Grylls Associates, Inc.  
455 W. Fort Street  
Detroit, MI 48226

Dear Ev:

We have received your comments (LOG 1363) regarding the Agency's Carpet selection for the Route 123 Security Control Center. We appreciate your professional concern and desire to carefully match all colors and finishes.

Our Interior Design/Fine Arts Staff has taken a somewhat experimental view of the Security Control Center and wishes to start with a carpet which will present a striking contrast. Since the area is relatively small, we have the option to change our carpet should it not work out well.

In light of the above, we elect to stay with the Mohawk (Shrimp) broadloom.
